

Task: To automate what lane drivers choose (Inside or Outside) at the choose cone when coming to a restart. Ideally, we want the top 16 in where they chose and running position for all restarts.

For Example:

Running Order		Line Up	
1	17	7	17
2	7		
3	88	2	88
4	8		
5	2	16	8
6	41		
7	16	39	41
8	39		
9	1	54	1
10	54		
11	51	25	51
12	25		
13	99	99	27
14	27		
15	20	42	20
16	42		

Choose Cone Visual and Location:

Video Choose Example: Double Click

Programs you will have access to: Team Analytics SMT, Running Order Table, Pocono Cup Results Page, Pocono Choose Results Sheet

Track: Pocono 2025 Cup Race

Days to Complete Task: 2 days

Results: Put into Pocono Choose Results Sheet, include restart lap number at the top of each restart and save document as “Name_PoconoTest”, example, JohnSmith_PoconoTest and email to alex@wiseoptimization.com and chrissy@wiseoptimization.com

*Please also include a written-out workflow of how you went about solving the task and the steps you took to get your answer
